Coverstitch

# Euphoria

The Euphoria Coverstitch machine is the perfect partner for your 4-thread overlocker, and features the Needle ATD System for a perfectly balanced stitch. Achieve a professional finish on all your garments – perfect for active knitwear and home décor projects.

Featuring ExtraordinAir™ looper threading, a wide throat space, LED lighting and presser foot knee lift, you'll enjoy your sewing time with the Euphoria. The Euphoria effortlessly creates triple, wide and narrow coverstitch or chain stitch and offers a professional finish on hems, belt loops, bindings and much more.

Extraordin  
*Air*™  
THREADING

**ATD** NO TENSION  
ADJUSTMENTS

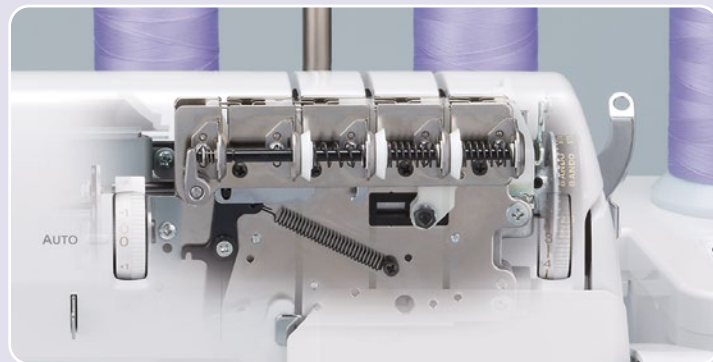

## ExtraordinAir™ Threading System for instant Looper Threading

Threading your coverstitch machine has never been this easy! Simply insert your thread into the threading port, press the button and a blast of air shoots the thread through the tubular looper.

## Needle Automatic Thread Delivery (ATD) System

The Euphoria can be threaded in any order and removes the need to manually adjust needle tensions, giving you a perfectly balanced stitch always. The ATD System delivers the required length of thread to achieve a balanced stitch, rather than putting tension on the thread itself – allowing you to stitch continuously on most fabrics and thread types without skipping stitches.

**Presser Foot Knee Lift** lets you lift the presser foot while keeping both hands on your sewing.

**Convenient Presser Foot Lever** located on the right side of the machine for easy access.

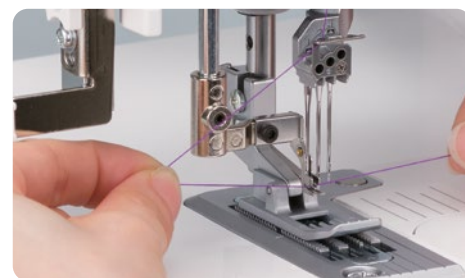

**5.5mm Presser Foot Height** in conjunction with the Drop Feed System which lowers the feed dogs automatically, allows you to easily work with thicker fabrics.

**5-Inch throat space** for accommodating larger projects with ease.

**Coverstitch Chain Off** makes starting and stopping your coverstitch easier than ever.

**Built-in Needle Threader** for easy, stress-free needle threading, every time.

**3 Powerful LED Lights** flood your workspace with bright and even lighting.

**Differential Feed** ensures more consistent gathering of fabrics and compensates for stretch distortion on your knits.

## Other features

- Vertical needle system minimises needle deflection and breakages
- Triple, wide and narrow coverstitch
- Easy presser foot pressure adjustment via dial on the left of the machine
- Up to 1,500 stitches per minute
