Overlocker

Enlighten

The Enlighten is an amazing 4-thread overlocker designed for unrivalled ease-of-use, with 11 patented features exclusive to Baby Lock such as ExtraordinAir™ Threading – with just the push of a button, both loopers are threaded instantly!

The Enlighten also offers time-saving features like the exclusive Baby Lock Automatic Thread Delivery (ATD) System, eliminating the need for frustrating tension adjustments, a built-in needle threader, tubular loopers, 6mm presser foot height for overlocking on thicker fabrics, and the beautiful exclusive wave stitch for fabulous decorative finishes.

ExtraordinAir™
THREADING

ATD NO TENSION
ADJUSTMENTS

ExtraordinAir™ Threading System for instant Looper Threading

Thread the entire machine
in less than 1 minute

Easily thread the loopers
in any order

Change any thread without
re-threading others

No more worrying
about tangled threads

ExtraordinAir™ Threading completely eliminates the annoying need to thread many points in a specific order for each broken thread or new colour. With our exclusive system, **threading can be completed in less than one minute!**

Simply insert threads into the threading ports, press a button and a blast of air shoots the threads through the tubular loopers – instantly threading the loopers, either individually or simultaneously.

The tubular loopers also prevent the threads from tangling, and by keeping the threads completely separated within the machine, the loopers can be threaded in any order. They also allow you to change any thread without having to re-thread the others.

ExtraordinAir™ with Tubular Loopers allows you to thread in any order and avoid tangles and knots as threads are not exposed.

Automatic Thread Delivery (ATD) System

Enlighten takes the tension out of overlocking by removing the need to manually adjust tensions, for a perfectly balanced stitch always. The ATD System delivers the required length of thread for a balanced stitch, rather than putting tension on the thread itself. You simply select A, B, C or D depending on the stitch desired – letting you overlock continuously across any fabric with any type of thread without skipping stitches.

6mm Presser Foot Height allows you to easily work with thicker fabrics.

Built-in Needle Threader for easy, stress-free needle threading, every time.

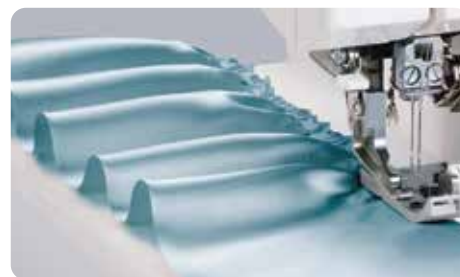

Automatic Rolled Hem via a simple dial retracts the built-in stitch width finger.

3 Powerful LED Lights flood your workspace with bright and even lighting.

Exclusive Wave Stitch to take your creativity to new levels.

True 2 to 1 Differential Feed ensures more consistent gathering of fabrics and compensates for stretch distortion on your knits.

Other features

- Vertical needle system minimises needle deflection and breakages
- 4, 3 & 2 Thread overlocking
- Up to 1,500 stitches per minute
- Heavy duty cutting system for easily cutting thick fabrics
- Presser foot pressure adjustment screw
- Flatlock stitch option for seaming and decorative effects
- Built-in accessory storage
- 11 Optional accessory feet
- 2 Safety switches
- Machine weight 8.4kg

Unrivalled Quality, Durability & Peace of Mind

Baby Lock machines made in Japan are renowned world-wide for their outstanding innovation, technology, build quality and durability, giving us the confidence to offer you a 5 year conditional parts and labour warranty.
