The New DesignNCut Electronic Cutting Machine.

Now anyone can make precision cuts in paper, fabric, felt, foam, plastic, vinyl, poster board and so much more.
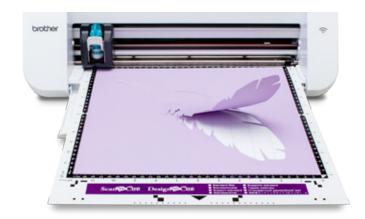

Getting Started is simple!

Use your PC or mobile device to access hundreds of ready-to-use projects at ScanNCutCanvas, Brother's FREE cloud-based design software. The projects come complete with step by step instructions and 'how to' videos. Or, create your own custom projects using the free design tools – no annual subscription.

Cut, draw and emboss.

DesignNCut makes it easy as 1-2-3 to create your projects. Cut paper and card in minutes. Optional accessories allow you to cut even deeper – up to 1.5 mm, plus emboss, draw and create rhinestone templates.

CaptureMat function

Use the CaptureMat function on the 12" x 12" (305 mm x 305 mm) cutting mat included with the DesignNCut machine and your mobile device to create a cutting file from a photo.
