Make professional-grade embroidery achievable for everyone!

6

360mm x 240mm Embroidery Area

Large designs are always popular, and with an expansive embroidery area, you can create stunning quilt blocks, wall hangings, jacket backs, table mats, and much more.

Take advantage of the embroidery area with the included set of hoops: 90mm round, 120mm round, 170mm round, 240mm x 240mm, and 360mm x 240mm. Each hoop is numbered according to the machine's unique hoop numbering system, ensuring you never stitch a design outside the permitted embroidery area.

Auto 10 Needles

7" Colour Touch Screen

The advanced 7" LCD colour touchscreen is incredibly user-friendly, featuring high brightness and intuitive navigation. Utilise the real-time stitch simulator to monitor your designs on-screen and preview the embroidery stitching process.

Choosing and sequencing design colours is a breeze with the customisable thread colour palette. Enjoy 36 built-in scalable fonts and the capability to draw directly on-screen. There is so much creative potential for creating unique projects!
