Meet your NEW sewing & embroidery bestie!

Hi, let's get to sew each other better!

Scan me to learn more!

What can you sew?

Everything! Denim, upholstery, costumes, curtains and pleather – my powerful computerised motor handle sit all.

I love stretch fabrics like Lycra and jersey. My stretch stitches are designed to flex.

I'm great for quilting too. There's stitches for piecing and applique and you can drop my feed dogs.

Getting started just got easier

Let the machine thread the needle for you. With the press of a lever the thread is pulled through the eye of the needle.

When you are finished, I trim the threads for you.

I have a speed controller that can slow things down and make it easier to control your stitching.

You can watch my handy videos online if you need help along the way.

Let's talk embroidery!

I come with a 100 x 100mm hoop to match my 100 x 100mm embroidery area.

Editing is easy on my 3.7inch colour touchscreen. Move, resize, rotate, combine designs and more.

There's 200 built-in designs. Plus 11 fun fonts to add names and other lettering to your projects.

Why use a machine with Wifi?

So you can send embroidery files from your mobile or PC into your machine. Brother's free Artspira App and Design Database Transfer[1] software make it easy.

You still can use a USB if you want to.

How can I embroider Disney designs?

In Australia, the only way to stitch out official Disney and Pixar embroidery is to purchase a Brother embroidery machine with the designs built-in.

The M380D has 65 built-in designs featuring well-loved Disney and Pixar characters.

Built to last

⭐ **I come with a 5 year electrical / 3 year mechanical warranty**

⚡ **My powerful motor happily keeps up with your heavy duty sewing.**

🛡️ **There's a robust metal frame inside for stability.**
