Meet Scan N Cut DX

The most advanced cutting machine with a built-in scanner is now whisper quiet and comes with new Blade Sensor technology. Cut card, fabric, leather, self-adhesive vinyl, felt and foam automatically, all without connecting to a PC.

Now with Blade Sensor Technology

See it.   Scan it.   Cut it.   Create it.

What makes ScanNCut DX a cut above the rest?

Improved Built-in Scanner

Up tp 600 dpi Built-in Scanner with RGB Recognition to create your own cut files. Scan fabric to fussy-cut fabric pieces for quilting.

PES/PHC and SVG Data Readability

Convert PES/PHC files to cut data directly on the machine. Also reads SVG data.

Wireless Network Ready

Wirelessly* transfer cut data from the machine to CanvasWorkspace application to store and edit designs.
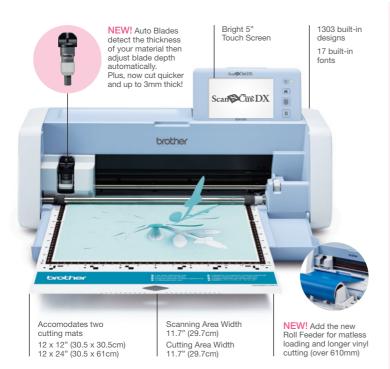

*Internet connection required

Easy Data Transfer

Not only can you save cut data to the machine's memory and USB memory stick, but you can now connect and transfer an FCM cut file to your PC via USB cable via CanvasWorkspace for PC.

NEW! Auto Blades detect the thickness of your material then adjust blade depth automatically. Plus, now cut quicker and up to 3mm thick!

Bright 5" Touch Screen

1303 built-in designs

17 built-in fonts

Accomodates two cutting mats
12 x 12" (30.5 x 30.5cm)
12 x 24" (30.5 x 61cm)
